(Part III Tactical Diversions and False Flag Deceptions)

“Pay no attention to the man behind the curtain!” — L. Frank Baum, *The Wonderful Wizard of Oz* (1900)

Tactical Diversions are the literal equivalent of a magician's sleight of hand trick. With one hand the magician diverts the attention of the observer to a specific hand whilst with the other hand they manipulate a certain item or situation so as to create the illusion of magic, a super natural occurrence. In other words, a tactical diversion serves to distract attention elsewhere so that the mind is tricked and deceived into believing that an illusionary occurrence represents some new form of an unknown reality.

“Nothing is easier than self-deceit. For what every man wishes, that he also believes to be true.” — Demosthenes, Greek Statesman (384 BC - 322 BC)

A False Flag Distraction works like and harnesses the elements of a tactical diversion however its primary purpose is to divert attention away from what the true perpetrator has done (or is about to do) so as to blame a negative occurrence onto another. The real intent of the False Flag Distraction (or operation) is to psychologically and/or politically disempower the reality of perception so as to establish a negative belief or narrative (someone or something is wrong, bad or evil) about a person, organization, government or country so as to justify within the patriotic or group mind of society, a rationalized reaction toward this new view point or newly defined enemy (“enemy” means “not friend”).

“The statesmen will invent cheap lies, putting the blame upon the nation that is attacked, and every man will be glad of those conscience-soothing falsities, and will diligently study them, and refuse to examine any refutations of them; and thus he will by and by convince himself that the war is just, and will thank God for the better sleep he enjoys after this process of grotesque self-deception.” Mark Twain, “The Mysterious Stranger” (1910),

esteemed American Writer of book “Huck Finn”, entrepreneur, publisher and lecturer (1893 – 1910)

The False Flag Deception, by defining and designating some entity as “the enemy,” does this to strategically neutralize, marginalize, control or undermine its power through threat or actual use of military force. In so doing the False Flag originator is ultimately able camouflage their agenda of gaining control or ownership of valued natural resources and/or a territory that is deemed to serve for strategic military purposes. Please give special consideration to the following quotes from some of the top operatives and observers of the magic of deception created by the new world order.

“In order to bring a nation to support the burdens of maintaining great military establishments, it is necessary to create an emotional state akin to war psychology. There must be the portrayal of external menace.” - John Foster Dulles secretary of state in the Eisenhower administration. (Super Patriotism, Michael Parenti, p93) (1888 – 1959)

“The easiest way to carry out a false flag attack is by setting up a military exercise that simulates the very attack you want to carry out ... this is exactly how government perpetrators in the US and UK handled the 9/11 and 7/7 “terror” attacks, which were in reality government attacks blamed on ‘terrorists’... The “next 9/11” — constantly promised by officials and the media — is likely to be carried out under the guise of future military exercises.”— Captain Eric H. May, a former Army military intelligence and public affairs officer (2008)

“The high officials, media executives and military officers who are bound by law and ethics to serve the American people have become a textbook example of a grand conspiracy. To look at it from their point of view, they are historic actors who are beyond good and evil, who must stimulate the American people to a necessary geostrategic adventure by any means necessary. To them, the official account of the 9/11 “terror” attacks is what Plato once described as the “noble lie,” a necessary falsehood told to a childlike public in order to direct it maturely.” – Captain Eric H. May, a former Army military intelligence and public affairs officer, 2008.

“All that is necessary for success of “false flag” or “black ops” events is for the government to have its story ready and to have a reliable and compliant media. Once an official story is in place, thought and investigation are precluded. Any formal inquiry that is convened serves to buttress the already provided explanation.” Paul Craig Roberts, American Economist, Journalist and former [United States Assistant Secretary of the Treasury for Economic Policy](#) under President Reagan in 1981.

“Throughout the 1990s both the U.S. oil industry and the Pentagon had contributed to the consensus that America would need full-spectrum dominance to guarantee access to oil and other resources in the rest of the world. This program would require massive expenditures, perhaps as much as a trillion dollars, and this could not be expected from Congress – except in response to an attack as massive and frightening as Pearl Harbor. With respect to the events of 9/11 it is clear that the Bush Administration’s settled goal of invading Iraq depended on the attack. What we have been witnessing, to quote the Oslo researcher Ola Tunander is “the use of terrorism to construct world order.” – Peter Dale Scott, considered the Father of ‘Deep Politics’, Berkley Professor, Poet and former Diplomat.

“The pattern of damage [Oklahoma City bombing] would have been technically impossible without supplementary demolition charges at some of the reinforced concrete bases inside the building, a standard demolition technique. For a simplistic blast truck bomb, of the size and composition reported, to be able to reach out on the order of 60 feet and collapse a reinforced column base the size of column A7 is beyond credulity... There was a massive cover-up of immense proportions.” – General Benton K. Partin, in charge of U.S. Air Force munitions design and testing, in a report on the Murrah building bombing [Oklahoma City 1995].

“9/11 was all planned. This was a government-ordered operation. Bush personally signed the order. He personally authorized the attacks. He is guilty of treason and mass murder.” – Stanley Hiltona – a senior advisor to Senator Robert Dole, 2004

"Others are engaging even in an eco-type of terrorism whereby they can alter the climate, set off earthquakes, volcanoes remotely through the use of electromagnetic waves. So there are plenty of ingenious minds out there that are at work finding ways in which they can wreak terror upon other nations. It's real, and that's the

reason why we have to intensify our efforts, and that's why this is so important."-1997, US Secretary of Defense William Cohen

"We are dealing with a criminal undertaking at a global level . . . and there is an ongoing war, it is led by the United States, it may be carried out by a number of proxy countries, which are obeying orders from Washington . . . The global war on terrorism is a US undertaking, which is fake, it's based on fake premises. It tells us that somehow America and the Western world are going after a fictitious enemy, the Islamic state, when in fact the Islamic state is fully supported and financed by the Western military alliance and America's allies in the Persian Gulf. . . . They say Muslims are terrorists, but it just so happens that terrorists are Made in America. They're not the product of Muslim society, and that should be abundantly clear to everyone on this floor. . . . The global war on terrorism is a fabrication, a big lie and a crime against humanity." - Dr. Michel Chossudovsky, Canadian economist, the University of Ottawa's Emeritus Professor of Economics (2015).

"Most terrorists are false flag terrorists, or are created by our own security services. In the United States, every single terrorist incident we have had has been a false flag, or has been an informant pushed on by the FBI. In fact, we now have citizens taking out restraining orders against FBI informants that are trying to incite terrorism. We've become a lunatic asylum." - David Steele, the second-highest ranking civilian in the U.S. Marine Corps Intelligence and a former CIA clandestine services officer (2015)

"All over the world, we know its well established, the State Department and Intelligent Agencies engage in theater, its spy craft to create spectacles and events that people may not realize are spectacles and events, like the overthrow of M in Iran in the 50's. They'll funnel money to protestors, fly people in to infiltrate protestors, they'll create fake newspapers and so on. So we know that this happens in countries around the world. I believe there's a law that's been passed that is part of the Defense Authorization Act that now makes it legal to propagandize American citizens. What this means is that we've entered an era that it's not crazy to assess news events to see if they're real or not real in the US and as well overseas. In fact its kind of crazy not to. Now, there's this

sort of reflexive vilification of anyone speculating about that because they become a conspiracy theorist. Now that its legal to propagandize the US it doesn't surprise me that there's more and more products coming up in popular culture and events showing up in the news streams that appear to be subsidized. - Naomi Wolf, Bestselling author, 'The End of America: Letter of Warning to a Young Patriot'

Relative to Tactical Diversions and False Flag Deceptions and to those who ultimately awaken to whistle-blow the great deceptions that ultimately lead good people to both tyranny and war, be assured that these people of clarity and courage will be predictably ridiculed, strategically marginalized and labeled as lunatic 'conspiracy theorists'. In this way the system, and those who own, run and manipulate the agenda of a new world order, are insured that the sleeping giant of society stays forever unconscious and undisturbed. Happily entertained, the giant continues to sleep from an electronically induced coma which streams from all manners of telecommunicated sports, drama and advertisements. This constant media infusion is intentionally designed to hypnotize humanity into running on a monstrous and ever spinning hamster wheel of illusion and unconscious consumerism.

As long as humanity spins on the wheel of delusion the puppet masters control the addictive drip from which people are seduced and attached by the world of the material and unreal. In truth the puppet masters know that all manners of history's most horrible occurrences will continue as long as humanity literally follows and acts from the false, material and illusionary world from which the true words of the Jesus figure sought to correct thru his statement: "Love Thy Neighbor as Thyself." Yes, the new world order understands and knows that all humanity's problems arise from individuals (thymself) loving our neighbors exactly as we love ourselves...and that is, that we love ourselves horribly.

Therefore, until each of us awaken to our true potential by first putting the spiritual oxygen mask on ourselves to breathe with a greater clarity of love, compassion and forgiveness for the self then we continue to remain asleep and unconsciously serve the tactical diversions and false flag deceptions that keep us separated and at war. In such a delusional state we can only project our programmed craziness onto another, harming them, all creatures and our planet, just as we do to ourselves. However, when each of us choose to awaken our giant within we collectively

own a spiritual invincibility that protects us from deception and harm. In this realized state we are whole and inspired to create a true and lasting legacy of peace on earth.

Towards a greater awakening please consider Part 4 in my series of articles: "Boogie Man Terrorists"...the individuals, organizations and/or countries who have been narratively labeled as bad or evil so that those who unconsciously sleep are manipulated to fight amongst one another and for a false good.
